CONTENT_INTAKE.md: everything Daniel needs to write or provide

How to use this file:

1. Fill in every `____`. Keep answers short: one or two sentences unless the line says otherwise. Leave a line as `____` if you want to skip it for now.
2. For photos and videos, drop files into `inbox/<folder>` (folder name given next to each item). Any filenames, any formats, phone photos are fine.
3. Lines marked **[confirm]** were filled in from earlier notes. Check them, fix them if wrong, otherwise leave as is.
4. When done, put this file in the repo root and tell Claude Code: "Read CONTENT_INTAKE.md and the inbox/ folder, apply everything to src/content and the media folders, then update TODO_ASSETS.md."

---

1. Global (shows up everywhere)

1.1 Basics

- Full name as shown on the site: Daniel Xing
- Tagline: UCLA sophomore. I like being creative.
- Focus line (one line, what you're looking for): Looking for growth and PM roles for 2027.
- Email to show publicly: dxing01@ucla.edu
- LinkedIn URL: https://www.linkedin.com/in/dxing01/
- GitHub URL: https://github.com/dxx-912
- Instagram: @dxx_912
- Resume: in the public folder
- Custom domain you want (or "decide later"): decide later

1.2 About me (HUD portrait panel, item 1)

- Description of me (each bullet point is a line break):
    - Hey I'm Daniel - thanks for visiting my portfolio :)
    - I'm a sophomore at UCLA right now majoring in economics and cognitive science, born and raised in Toronto.
    - I come from a pretty artistic background (spent my formative years in specialized art programs), so I hope to build and create in whatever I end up doing professionally, whether through the arts or technology.

    - I’m currently recruiting and hope to land product management, product marketing, or growth roles for the summer.
- Photos with descriptions: `HUD Photos` (2 photos)

1.3 Game dialogue

- Wake up line (first thing Daniel says): Hey, I'm Daniel. Welcome to my dorm at UCLA.
- Idle thoughts (5 to 8 short lines, shown when standing still):
    1. should probably do my readings
    2. where did I leave my charger?...
    3. I need to do my laundry
    4. hmm…
    5. I’m him
    6. I need to apply to more jobs…
- Red Bull hint lines:
    1. where can I get a Red Bull...
    2. is there any Red Bull left?...
- Tired lines:
    1. I'm so tired
    2. I want to take a nap...
- Completion message (when all 19 are found), one line: Thanks for exploring - let’s conect sometime!

1.4 Facts to confirm

- Major exactly as you want it written: Economics and Cognitive Science
- Honours student, exact wording: College Honours Student
- Official name of the entertainment association: Business in Entertainment Association
- Hope For Hearing: 500+ members, 12 chapters, still current? No
- Piano credential, exact name (to replace "highest nonprofessional degree in Canada"): The Associate Diploma (ARCT) in Piano Performance and Harmony
- Add these to the site? Write yes or no for each:
    - NST internship, CEO's Office: no
    - NST 2026 Hong Kong Award Summit website: no
    - LionChase, investment banking analyst: no
    - Bruin Finance Society, senior editor: no
    - Creative Labs project lead (this quarter): no
    - DSP and IBB website rebuilds as their own projects: yes

---

2. Dorm (professional)

2.1 UCLA education (pennant, item 2)

- Major: B.A. Economics, B.S. Cognitive Science
- GPA: 3.72
- Year and expected graduation: June 2029
- Coursework: microeconomic theory, macroeconomic theory, intro to C++, accounting principles
- Photos: in folder “me and my friends at UCLA”

2.2 Student orgs (TO DO pin board, item 3)

For each: one line on what the org is, and your role.

Org	What it is (one line)	Your role
William F. Sharpe Fellows	Fellowship providing UCLA’s top business students with mentorship, resources, and professional development.	Technology Track Vice President
Delta Sigma Pi - Xi Omicron Chapter	UCLA chapter of the nation’s leading co-ed professional business fraternity, developing members through professional events, leadership, and service.	Director of Marketing
International Business for Bruins	Consulting club providing members with professional development, real client work, and a network in international business.	Director of Marketing
Business in Entertainment Association	Club connecting UCLA students to careers in the business of entertainment through panels, networking events, and premieres.	Director of Digital Media
UBS Technology Committee	Committee of UCLA’s largest student organization that runs events and recruiting programs at the intersection of tech and business.	Committee Member
UCLA Residential Life	Campus department that manages, programs, and supports the student	Resident Assistant at Rieber Hall South, Floor 6

	living communities across "The Hill" and University Apartments	

2.3 Software projects (laptop, item 4)

Cold Outreach Automator · screenshots: `inbox/cold-email/`

- Live link: https://cold-email-automator-two.vercel.app/
- What it does, one line: Sends personalized cold emails from your own Gmail. Import a contact list, approve contacts, write one template, and it schedules sends and follow-ups on each contact's local time.
- Why I built it: Didn't want to pay for Apollo.io, so I built my own version.
- Built with (tools, stack): Next.js, React, TypeScript, Supabase (Postgres, Auth), Vercel, Google Apps Script, Google OAuth, Claude Code
- Result (users, emails sent, time saved, anything measurable): 7 users so far with over 650 emails sent.

Saved posts scroller · screenshots: `inbox/scroller/`

- Live link: https://morning-scroller.vercel.app/
- What it does, one line: Turns your Instagram saved posts into a daily feed. Upload your saves export, and it reshuffles them every day into a scrollable feed you can filter by category.
- Why I built it: I save a lot of posts on Instagram but never go back to them. I wanted a way to actually revisit them, without the noise of the main app. I also save a lot of motivational reels that I can scroll through every morning to start my day.
- Built with: React, TypeScript, Vite, Tailwind, IndexedDB, Vercel, Claude Code.
- Result: I start every morning quite motivated now. Shared with friends and family; good feedback so far.

Ateball, Creative Labs · UI screenshots: `inbox/ateball/`

- Role: Project Manager
- The problem (who it was for, what was broken): Everyone always has opinions on everything, especially when a friend group has to decide where to eat out together. All of a sudden, people are "okay with anything" and end up going to Raising Cane's for the nth time. Built this app to fix this problem.
- What I did (decisions, how I ran the team), 2 to 3 sentences: Led a 12-person team from zero to one over 12 weeks, running two to three syncs a week across design, frontend, and backend.
- Result (what shipped, numbers, feedback): Although we didn't finish the entire application on time, this was my first time building a tech product end-to-end and a great experience leading multiple teams toward one goal.
- Link (if any): ____

2.4 Consulting (binder, item 5) · slide screenshots: `inbox/consulting/` (only slides you're allowed to share)

Genesis Alternative Ventures

- Role: Project manager (through International Business For Bruins)
- Team size and timeline: 6 people / spring quarter 2026
- The problem (client and question): Genesis Alternative Ventures, a Southeast Asian venture debt fund, wanted to know whether and how to expand the credit products in its Fund III across Southeast Asia, without cannibalizing its existing business
- No pictures due to NDA :(

L.E.K. Case Competition

- Result: 3rd place finalist out of 50+ teams
- Team size and date: 5 people (with Shakti Widjonarko, Kenneth Lee, Aaron Teng, Ashlyn Bi) / spring 2026
- The case question: CorVista, a cardiology EMR software company, had to choose its next growth move: build a data analytics product on top of its existing cardiology records, or enter the cardiac surgery software market.
- Our answer, one or two lines: Sequence it. Launch data analytics first, as a 4-month build sold as an upsell to existing clinic customers before private equity rollups lock them into competitors. Then use that cash flow and those relationships to enter cardiac surgery, which is a larger but harder market with no purpose-built competitor today.
- Pictures: slidedeck (uploaded as PDF)

2.5 Club marketing (phone, item 6)

Delta Sigma Pi · (graphics, Vogue campaign, website screenshots)

- Role: Director of Marketing
- What I did, one line: Ran the chapter's Fall 2026 rush marketing: designed Vogue-themed photoshoot campaign, the rush video, and a rebuilt chapter website.
- Results (followers, reach, rush numbers, anything measurable): Vogue themed rush campaign: 350K+ views, 800+ interactions, 18% follower growth. Rush video: 110K+ organic views, 2K+ interactions. Chapter website: 3K+ visitors in its first 30 days
- Rush video link: https://www.instagram.com/p/DdsWVwHBf9C/ (video file also in folder for preview)
- Website link: ucladsp.com

International Business for Bruins · `inbox/ibb/`

- Role: Director of Marketing

- What I did, one line: Rebuilt the club's brand identity (logo, fonts, color palette), produced recruitment and event content, and shipped a new club website to showcase offerings and drive recruitment.
- Results: Recruitment and event content reaching 80K+ views, New brand identity and website launched
- Website link: ibbatucla.com

2.6 Upper Canada College (grad cap, item 7) ·

- IB Diploma 40/45, SAT 1560
- HL: Math A&I, English L&L, Economics; SL: Mandarin B, Global Politics, ESS **[confirm]**
- Extended essay: Economic and Geopolitical Implications of Taiwan's Semiconductor
- Industry
    - link: https://drive.google.com/file/d/14pv1NG7O9NHQkYhc4oL-PvGsY7-hgb9g/view?usp=sharing
- Business Club President: Led UCC's DECA and FBLA teams, growing membership by 400% through promotional videos and graphics (16,000+ impressions) and running weekly prep sessions, guest lectures, and a 1-on-1 mentorship system.
- Asian Heritage Club President: Led 40+ members in running school wide cultural events for Lunar New Year and AAPI Month, plus potlucks, karaoke nights, trivia tournaments, and performances, with promo content reaching 12,000+ impressions.
- Photos: hat toss, club photos, etc., all in folder

2.7 Resident Assistant (closet, item 8)

- Building and year: Rieber Hall South, Floor 6
- Supporting 98 residents: I handle conflicts, policy issues, and emergencies, organize programming, and help run move-in and orientation. I get a free single and free food in return, which is great cause UCLA has free food.
- Closet outfit colors to cycle through: black Stussy shirt, UCLA-branded shirt, white tank top, full suit

2.8 Hope For Hearing (shirt, item 9) · gallery: `inbox/hope-for-hearing/`

- Mission, one line: Raising awareness of hearing loss and the stigma surrounding it, as well as raising funding for cochlear implant research.
- Founding story:

  I was walking from school to the subway one random day when I met this guy called Roy Feng. It was mid-winter, and I forgot to bring my coat, so I was freezing. He offered his coat to me, and we started chatting.

  I was in grade 10; he was a year older and in his first year of the IB program. He started

pitching me this idea for his CAS project (volunteer service project IB kids have to do) - something about doing some charity work for hearing loss, since he had mild tinnitus. He asked me if I wanted to help out.

Seemed interesting, and Roy seemed like a cool, nice dude who just offered me his coat in the middle of Toronto's shitty ass weather. My father also had hearing loss, so this mattered to me personally as well.

We started texting and planning how to raise funds, and settled on spamming snack stands and running a big music night centered around hearing loss awareness. Admittedly, Roy did probably 90% of the work at first and got together a big team that comprised mostly his friends who were all older than me. By the end of the year, we had raised over 3,000 for Sunnybrook Hospital's cochlear implant R&D department.

Over the summer, I went to a STEM summer program called SHAD Canada. Great experience, but my big takeaway from that camp was that people were hella struggling to fulfill Ontario's 40-hour volunteer requirement. Coincidentally, Roy had also prefaced that he was going to be a lot busier going into his senior year with college apps and the hellfire that IB DP 2 is.

Naturally, I started thinking about the possibility of replicating everything we did at my high school, but across multiple schools. This would not only scale our impact tenfold, but also give people a chance to take on leadership roles at their school for extracurricular experience or simply earn volunteer hours.

As such, I started doing heavy outreach. I DMed every possible person I could think of through Instagram, Discord, LinkedIn, any platform, cold-messaged and got ghosted a million times, and posted graphics everywhere. I ended up with over 30 people interested in starting a chapter. Oops.

I had now dug myself into a shithole, too much food on my plate, too much to chew on, whatever other sayings are out there. But it was through this I developed the most as a leader - the whole scenario taught me how to manage and lead what was now hundreds of people across the country toward one mission. I learned how to deal with unthinkable problems that inevitably arise, how to handle conflicts between chapter heads, and how to mentor chapter heads to organize their own events, etc. I had to deal with school administrators, public officials, immature high school students, corporate HRs, and just a whole bunch of BS that you genuinely cannot even make up that came my way.

But I loved it. The busyness of maintaining a self-running system I could confidently say, "I built this shit from the ground up," was incredibly satisfying (mostly ground up; Roy built the foundation, which is the hardest part tbh). The confidence I had walking up onto any stage to present Hope For Hearing was profound. The recognition I had across the entirety of Toronto walking into any school with a chapter was crazy tuff.

In other words, I was straight aura farming precisely because of how difficult it was to start, build, scale, and maintain such a huge, complex organization.

Not only did we raise over 25,000 for charity and win over 3,500 in funding grants, but we also helped hundreds of students meet their 40-hour volunteer requirement, gave 24 chapter heads invaluable leadership experience they'll carry for the rest of their lives, and genuinely raised awareness about hearing loss. The number of conversations I had with people who had shared experiences of knowing somebody with hearing loss has permanently changed how I listen and empathize with others.

Now, as I look back on this whole experience, I realize how much Hope For Hearing has shaped me as a person, a friend, a leader, and a visionary. But at the end of the day, none of this would have happened without that one act of kindness from Roy offering me his coat that one random day. And for that, I'll be quite indebted to Roy for a long-ass time.

- Milestones (3 to 5, with dates):
    - Dec 2022: Founded in Toronto (Roy meets Daniel at Davisville Station)
    - Jan 2023: Partnered officially with Sunnybrook Hospital
    - Sep 2023: Partnered officially with CHHA (Canadian Hard of Hearing Association)
    - Dec 2023: Reached the $10,000 fundraising goal
    - Aug 2024: Expanded to 12 official high school chapters across Canada
    - Jun 2025: Passed $25,000 raised

- Grants won (names and amounts if shareable):
    - Youth Impact Challenge: $1,000
    - Ingenious+ Youth Innovation Award: $1,000
    - IdeAction Global Pitch Competition: $1,500

- Website or Instagram link: https://www.instagram.com/hopeforhearing/ (website Wix subscription expired)

3. Home (personal)

3.1 North York (window, item 1) · gallery: `inbox/north-york/`

- 18 years there
- The library and the cafe (names, or keep unnamed): ____ / ____

- One or two lines on what home means to you: ____

3.2 Shelf (item 2)

Sports tier · `inbox/rowing/`, `inbox/volleyball/`

- Rowing: high school varsity **[confirm]**, which club or school crew: ____
- National championship: which event, year, result: ____
- Crew blade colors (for the oar): blue and white stripes **[confirm]**
- Beach volleyball, one or two lines (how often, where, with who): ____

Awards tier · photos of each plaque: `inbox/plaques/`

- DECA Provincial Champion **[confirm]**, event and year: ____
- FBLA Business Management National Champion, CNLC **[confirm]**, year: ____
- FBLA International 6th place, NLC **[confirm]**, event and year: ____

Reading tier

- Attack on Titan, one line on why: ____
- Lookism, one line: ____
- Sweet Home, one line: ____
- Solo Levelling, one line: ____

3.3 Exercise (pull up tower, item 3) · `inbox/exercise/` (photos and short clips: muscle up, trap bar deadlift, physique)

- Routine, one line: lifts and sprints or runs almost every day **[confirm]** ____
- Current goal or favorite lift: ____

3.4 Music (speaker, item 4)

- Why music matters to you, 1 to 2 sentences: ____
- Genres: dubstep, EDM, classical, R&B, hip hop **[confirm]**
- A few favorite artists (text only): ____
- Main Spotify playlist link: ____
- Lofi playlist: https://open.spotify.com/playlist/0vvXsWCC9xrXsKd4FyS8kM **[confirm]**
- Audio files: lofi MP3s in `public/assets/audio/lofi/`, Rachmaninoff in `public/assets/audio/featured/`

3.5 Photography (camera, item 5) · your best photos: `inbox/photography/` (8 to 15)

- How you got into it: ____

- What you like to shoot: ____
- Camera you use (optional): ____

3.6 Family (nightstand, item 6) · `inbox/family/` (choose carefully, this goes public eventually)

- How you want to describe them (names optional): ____
- One line: ____
- Photo for the frame on the nightstand: put it first in the folder

3.7 Piano (item 7) · `inbox/piano/` (recital photos, optional short clip)

- Years playing: 12 **[confirm]**
- Credential: see 1.4
- Favorite piece to play: ____
- One line on what piano means to you: ____

3.8 Baking and cooking (pie, item 8) · `inbox/baking/`

- Cooks and bakes for family **[confirm]**
- Signature things you make (apple crisp **[confirm]**, others): ____
- One line: ____

3.9 Fluffy (cat, item 9) · `inbox/fluffy/`

- Name: Fluffy **[confirm]**
- Breed or description: ____
- Age: ____
- How you got him: ____
- Personality, 1 to 2 lines: ____

3.10 Longboard (item 10) · `inbox/longboard/` (build and soldering photos, the destroyed battery)

- Originally meant to be electric **[confirm]**
- How the build went, 3 to 4 sentences: ____
- What happened to the battery: ____
- What you learned: ____
- Current state (rideable, unfinished, retired): ____

---

4. Quick view only (`/portfolio`)

- Work card order (number 1 to 6): Cold email automator __ · Saved posts scroller __ · Ateball __ · Genesis __ · L.E.K. __ · DSP and IBB marketing __
- One line card summaries are pulled from section 2. Anything you want shorter on the cards: ____
- Inventory labels (edit if you want): Rowing, national champ · Piano, ARCT · Built a longboard · Fluffy · Photography · Baking · Music · Lift and sprint · Beach volleyball
- One fun fact per inventory item (shown when a card flips):
    - Rowing: ____
    - Piano: ____
    - Longboard: ____
    - Fluffy: ____
    - Photography: ____
    - Baking: ____
    - Music: ____
    - Exercise: ____
    - Beach volleyball: ____

---

5. Image and audio files (exact names, put straight into the repo)

Decor slots, in `public/assets/decor/`:

- [ ] `poster-graduation.png`
- [ ] `poster-damn.png`
- [ ] `poster-duck.png`
- [ ] `poster-home-1.png`, `poster-home-2.png`, `poster-home-3.png` (what goes in each: ____ / ____ / ____)
- [ ] `hoodie-logo.png`
- [ ] `speaker-logo.png`
- [ ] `instagram-logo.png`
- [ ] `can-logo.png`
- [ ] `volleyball-logo.png` (optional)
- [ ] `phone-screen.png` (a screenshot of your Instagram grid, optional)
- [ ] `poster-caricature.png` (optional, ask the artist first)

Audio:

- [ ] Lofi MP3s in `public/assets/audio/lofi/`
- [ ] Rachmaninoff file in `public/assets/audio/featured/`

---

6. Art and decisions

- Itch.io asset pack link (or "keep placeholders"): ____
- Character commission: artist or platform: ____ , status: ____
- Cat commission (same artist?): ____
- Spare slot on the home work table, what goes there (or "leave clutter"): ____
- When to go public (target date): ____
