CONTENT_TODO.md: everything still missing

Fill in every `____`. Rough notes are fine; they'll be cleaned up into final copy. Write "skip" for anything you want left out. Photos go into the `photos/` folder named next to each item, then run `npm run photos`.

When done: put this file in the repo root and tell Claude Code: "Read CONTENT_TODO.md, apply every answer to src/content (and CONTENT_FINAL.md), wire any new photos, then update TODO_ASSETS.md. Never invent anything I left blank."

---

1. Quick fixes (dorm and global)

- Hope For Hearing title ("Founder" or "Co-founder"): Co-founder

---

2. Home (personal)

2.1 Shelf: Sports tier

- Description: Rowed for two years on my high school’s junior varsity team.
- Regattas: placed gold in:
    - Mother’s Day Regatta Novice 8+
    - Mother’s Day Regatta Junior 8+
    - South Niagara Invitational Novice 8+
    - South Niagara Invitational Junior 8+
    - CSSRA National Championships Novice 8+
- Your role or seat (optional): Can row port and starboard - rowed seats 1 and 2 (bow pair)

2.2 Shelf: Awards tier

- DECA Provincial Champion, Marketing Communication Series
- FBLA National Champion (CNLC), Business Management
- FBLA International 6th place (NLC), Business Management
- Gold Service Tie for completing 200+ volunteer hours.

2.3 Shelf: Reading tier (one line each on why you like it)

- Attack on Titan: Have only watched one anime ever - it was AOT, and I loved it.
- Lookism: Been reading this Webtoon every Sunday for over 10 years. First ~200 episodes were really good.
- Sweet Home: Insanely good character development. Have reread this maybe 8 times now and tear up every time at the ending.
- Solo Levelling: Super fun, power-fantasy story with a pretty interesting plot.

2.4 Pull up tower: Exercise

- Description: Currently trying to stick to a pretty intense routine: PPL, chest/back, arms, rest, sprints/long-runs. Not the most consistent, but I'm getting there. Currently trying to hit 2 plates before the end of 2026 and learn a handstand.
- PRs: Bench: 205lbs. Trap-bar deadlift: 365lbs. 5km: 19:27. Also unlocked the muscle-up and elbow-lever.

2.5 Speaker: Music

- Description: I love music and actually want to learn production one day. Favourite genres are definitely classical, dubstep, and hip-hop. Top artists (according to Spotify): Rachmaninoff, Chopin, Kanye, Tyler, the Creator, Keshi, and wave to earth.
- Also love Sullivan King, Wooli, Riot, Knock2, and Fakemink.
- Check out my dubstep playlist: https://open.spotify.com/playlist/6u0kVAzcws3L14vrUz6ZqC?si=vMh2Yu3JTFGza3wIyWn0Pw

2.6 Camera: Photography

- Description: I love photography. Life moves so fast; time passes in the blink of an eye, but photography can capture a moment in its purest form. I use my parents' old Canon EOS Rebel and like taking well-composed photos when travelling. I have hundreds of photos from travelling across China and Japan, but they haven't been colour graded in Lightroom yet. Check out some of my work below!
- More photos (optional): `photos/2 Home/05 Camera, photography/Photos you took (any number)`

2.7 Nightstand: Family

- Parents immigrated from China in 2002 and met at Queen's University. Sister is in her first year of high school and has been juggling a ton of extracurriculars
- Photos: [ ] `photos/2 Home/06 Nightstand, family/Gallery (any number)`
-

2.8 Piano

- Description: Played piano for 12 years, from age 4 to 16, when I completed my ARCT diploma. My ARCT program, from lists A-F:
    - Bach - Partita in A minor (Fantasia, Sarabande, Gigue)
    - Beethoven - Pathétique Sonata
    - Chopin - Grande Valse Brillante
    - Debussy - Reflets dans l'eau
    - Tan Dun - Eight Memories in Watercolor

2.9 Pie: Baking and cooking

- Description: I'm a big back and I love eating so naturally I love cooking and baking as well. I have a fire apple crisp recipe I make multiple times a year. I also make coke chicken and thai curry chicken pretty often. Apart from that, I can cook up most simple dishes. Fried rice with whatever BS is in my fridge is my go-to.

2.10 Fluffy

- Description: British longhair that we got back in 2021 in the middle of COVID. Funny because my mom was super against pets up until Fluffy and now she loves him more than me I swear.

  This cat is extremely fat and greedy and selectively stupid. Typically, Fluffy will be very ignorant and quiet, but will immediately start screaming and pull out every trick he knows for food. Generally he's very social and loves loafing or sleeping around people, but does not like prolonged physical touch. Fluffy is 6 years old now and fatter than ever.

2.11 Longboard

- The story: After receiving NO internship offers for my freshman summer, I decided not to chud around and build something that was 1. difficult 2. useful 3. interesting.

  Consequently, I decided to build an electric longboard. It was useful for getting to class at UCLA and was also pretty interesting. Unfortunately, this shit was way too difficult. I spent a full week sourcing every single part I needed with the endless list of required compatible specifications, primarily from Chinese manufacturers. I also travelled across every end of Toronto to source the different longboard parts I needed.

  I actually ended up building a fully-functional longboard that's rides really smoothly. Unfortunately, the specs between the motor and battery did not end up being compatible, so I decided to learn how to solder off YouTube, cut the wiring, and meld them myself.

This was a terrible mistake.

With a charged battery and fully exposed wires, I think I short-circuited the wiring which burned a mark on my table and absolutely fried the motor and battery. I'm really lucky it didn't burn my skin because I was holding the wires when it happened.

Subsequently, my mom got really mad for my idiocracy and told me to stop before I burn the house down. I'm still hoping to finish this project someday, since I have a really intuitive understanding of how electric longboards work inside-out now (check out the Master Google Doc I used for this project below), but this time I'll be sure to source more legitimate parts. At least I have a pretty sick longboard now.

My Master Google Doc:
https://docs.google.com/document/d/1GeFjlEI0BBgI-yIhaeFw6F2dBhx2u-wVWmrTyLuOT_o/edit?usp=sharing

3. Quick view (`/portfolio`)

- Work card order, number 1 to 6: Cold Outreach Automator 1 · Saved posts scroller 2 · Ateball 4 · Genesis 6 · L.E.K. 5 · DSP and IBB marketing 3
- One fun fact per hobby box (shown when a box flips):
    - Rowing: Won the national championships!
    - Piano: I have the ARCT diploma in Piano Performance
    - Longboard: Originally supposed to be electric before I put a hole in my table.
    - Fluffy: Fat and stupid.
    - Photography: Check out my photography from Asia!
    - Baking: I can cook up the best apple crisp you'll ever have.
    - Music: Top 2 genres are classical and dubstep.
    - Exercise: TBDL 365lbs Bench 205lbs
    - Beach volleyball: I larp this I'm terrible but I love to play.
    - Family: My #1 fans and supporters.
